**Subject:** 16th Ave Morning Results

Ms. McFarland,

I ran an extra traffic patrol (XP-Traffic) in front of 6079 16<sup>th</sup> Ave from 0700 to 0815 hours. Significant amounts of traffic in both directions, but no problems with speed. Average speeds were between 18-25 MPH. I observed 4 x vehicles over 25 MPH during the observation/enforcement period. The fastest observed speed was 28 MPH. I flashed my rear lights and all 4 vehicles immediately slowed to below the posted limits. No safety issues observed with regards to reckless, careless, or aggressive driving behavior. I'll assess again this afternoon calls permitting.

Respectfully,
